

Gogebic County
Soil Erosion and Sedimentation Control (SESC)
General Information

Program Purposes

As required under Michigan law, Gogebic County regulates all construction activity within 500 feet of any waterbody to protect Michigan's waters from soil and sediment. The program is designed to require erosion control techniques to reduce soil erosion and prevent sedimentation of lakes and streams through the issuance of a SESC permit and conducting site inspections to ensure compliance.

Activities that Require a Permit

Any construction within 500 feet of any water body, or any construction area or land clearing one acre or larger, requires a Soil Erosion and Sediment Control Permit, **before** a Building Permit can be issued, as per State law. The following activities generally require a SESC Permit.

- Home and Garage Construction
- Roads and Culverts
- Sand and Gravel Pits
- Earthwork near Wetlands or Shorelines
- Commercial Development

Rules and Regulations

The rules and regulations are commonly referred to as Part 91*, NREPA, of the State of Michigan, as amended. The rules and regulations can be found on the web at Michigan's Department of Environment, Great Lakes and Energy website.

Permit applications

Applications are available online at **gogebiccd.org**. Permits can also be found at your township offices or by visiting the Gogebic County Soil Conservation District office at the Natural Resources Center on 500 N. Moore St. Bessemer MI, 49911 or by calling our office at 906-663-4512.

Requirements:

Gogebic County requires the following information and fees to be included with a complete permit application to obtain a Soil Erosion and Sediment Control Permit.

1. A complete, accurate and signed application
2. A check, payable to Gogebic Conservation District, for \$200.00 minimum and per acre. Fees double if work begins before a permit is issued.
3. A site drawing, or plan, that contains the following information:
 - a. Name and distance to nearest water body
 - b. Short-term and long-term erosion control measures
 - c. Slope of land and drainages, soil type and area of disturbance
 - d. Location of buildings and any proposed structures

* Part 91 Soil Erosion and Sedimentation Control of the Natural Resources Environmental Protection Act: *A SESC permit is required before any construction begins if the disturbed area of construction, land clearing or fill is 1 acre or greater in size or within 500 feet of a water body such as a lake, stream, or wetland.*

OFFICE USE ONLY

Permit Number:
Date Issued:
Expiration Date:
File Number:
Fee Paid:

1. APPLICANT (Please check if applicant is the landowner or designated agent*)

Name		Landowner	Designated Agent
Address			
City	State	Zip Code	Area Code / Telephone Number

2. LOCATION

Section	Town	Range	Township	City / Village	County
	N	W			Gogebic
Subdivision	Lot No.	Tax ID Number	Street Address		

3. PROPOSED EARTH CHANGE

Describe Project	Size of Earth Change (acres or square feet)
Name of and Distance to Nearest Lake, Stream, or Wetland	Date project to start
	Date project to be completed

4. SOIL EROSION AND SEDIMENTATION CONTROL PLAN (Refer to Rule 323.1703)

Note: One (1) complete set of plans must be attached.	Estimated Cost of Erosion and Sediment Control
	Plan Preparer's Name and Telephone Number Area Code

5. PARTIES RESPONSIBLE FOR EARTH CHANGE

Name of Landowner (if not provided in Box No. 1 above)		Address	
City	State	Zip Code	Area Code / Telephone Number
Name of Individual "On Site" Responsible for Earth Change		Company Name	
City	State	Zip Code	Area Code / Telephone Number

6. FEES

Residential:	\$200 minimum and per acre
Commercial, Sand Pits, or Gravel Pits:	\$200 minimum and per acre
After the Fact Permits	\$400 minimum and per acre

I (we) affirm that the above information is accurate and that I (we) will conduct the above described earth change in accordance with Part 91, Soil Erosion and Sedimentation Control, of the natural Resources and Environmental Protection Act, 1994 PA 451, as amended, applicable local ordinances, and the documents accompanying this application and permit.

Landowner's Signature	Print Name	Date
Designated Agent's Signature*	Print Name	Date

*Designated agent must have a written statement from landowner authorizing him / her to secure a permit in the landowner's name.

**Part 91, Soil Erosion and Sedimentation Control Plan****Minimum Requirements**

Project: _____

Rule 1703 Requirement	Included in Plan?*	Comments
Map with scale: 1" = 200' or less, or indication of exact distances between noted features on site plan, including site location sketch	Yes <input type="checkbox"/> No <input type="checkbox"/>	
Legal description of property (town, range, section, quarter-quarter section)	Yes <input type="checkbox"/> No <input type="checkbox"/>	
Proximity of any proposed earth change to lakes and/or streams	Yes <input type="checkbox"/> No <input type="checkbox"/>	
Predominant land features	Yes <input type="checkbox"/> No <input type="checkbox"/>	
Slope description or contour intervals	Yes <input type="checkbox"/> No <input type="checkbox"/>	
Soils survey or written description of the soil types of the proposed exposed land area	Yes <input type="checkbox"/> No <input type="checkbox"/>	
Description and location of the physical limits of each proposed earth change	Yes <input type="checkbox"/> No <input type="checkbox"/>	
Description and location of all existing and proposed on-site drainage and dewatering facilities	Yes <input type="checkbox"/> No <input type="checkbox"/>	
Timing and sequence of each proposed earth change	Yes <input type="checkbox"/> No <input type="checkbox"/>	
Location and description for installing and removing all temporary SESC measures	Yes <input type="checkbox"/> No <input type="checkbox"/>	
Description and location of all proposed permanent SESC measures	Yes <input type="checkbox"/> No <input type="checkbox"/>	
Maintenance program for all permanent SESC measures and designation of person responsible for maintenance	Yes <input type="checkbox"/> No <input type="checkbox"/>	

If No is checked above, the plan must be revised to include the missing element prior to submittal/approval.*Other Comments:**
